NOTICE: The expiration date displayed in this record is the date the registrar's sponsorship of the domain name registration in the registry is currently set to expire. This date does not necessarily reflect the expiration date of the domain name registrant's agreement with the sponsoring registrar. Users may consult the sponsoring registrar's Whois database to view the registrar's reported date of expiration for this registration.

TERMS OF USE: You are not authorized to access or query our Whois database through the use of electronic processes that are high-volume and automated except as reasonably necessary to register domain names or modify existing registrations; the Data in VeriSign Global Registry Services' ("VeriSign") Whois database is provided by VeriSign for information purposes only, and to assist persons in obtaining information about or related to a domain name registration record. VeriSign does not guarantee its accuracy. By submitting a Whois query, you agree to abide by the following terms of use: You agree that you may use this Data only for lawful purposes and that under no circumstances will you use this Data to: (1) allow, enable, or otherwise support the transmission of mass unsolicited, commercial advertising or solicitations via e-mail, telephone, or facsimile; or (2) enable high volume, automated, electronic processes that apply to VeriSign (or its computer systems). The compilation, repackaging, dissemination or other use of this Data is expressly prohibited without the prior written consent of VeriSign. You agree not to use electronic processes that are automated and high-volume to access or query the Whois database except as reasonably necessary to register domain names or modify existing registrations. VeriSign reserves the right to restrict your access to the Whois database in its sole discretion to ensure operational stability. VeriSign may restrict or terminate your access to the Whois database for failure to abide by these terms of use. VeriSign reserves the right to modify these terms at any time.

The Registry database contains ONLY .COM, .NET, .EDU domains and Registrars.

</> API

Whois lookups are often useful when looking into gathering information about a domain name.

How do you see whois information about a domain name?

Checking whois information for a domain name is easy, using the whatsmysdns.net whois lookup tool you can look up whois data for any domain name.

What is a whois lookup?

A whois lookup is a type of request which retrieves information about the owner of a domain name.

What information is contained in a whois response?

There is a lot of information returned from a whois request a domain name. This information typically includes the date that the domain name was registered, when it was last updated as well as when it is due to expire. Additionally, information about the owner and the registrar are also returned.

What domain names can a whois lookup be performed on?

Any domain can have a whois lookup performed on it.

Some examples: [google.com](https://www.google.com), [wikipedia.org](https://www.wikipedia.org), [apple.com](https://www.apple.com), [youtube.com](https://www.youtube.com), [amazon.com](https://www.amazon.com)
